**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

### ***Specification***

2. Claims 150-172 are objected to because of the following informalities: Because there is no claim 144 to 149, claims 150-172 should be renumbered. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 125,126,128-143 are rejected under 35 U.S.C. 102(e) as being anticipated by Dietz et al. (5,486,180). Dietz et al. disclose a bone preparation device comprising: a milling block (fig. 6), guide tracks (32,33,34), bone removal device (fig. 5).

Art Unit: 3731

5. Claims 125,126,128-131,134-137,150-159 are rejected under 35 U.S.C. 102(e) as being anticipated by Bertagnoli (5,571,109). Bertagnoli discloses a milling block (10) including an inner surface with tracks (15), bone removal device (31 or 40 which is a part of bone removing device), a spinal implant (60).

The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the device of Dietz et al. or Bertagnoli which is capable of being used as claimed if one desires to do so.

***Allowable Subject Matter***

6. Claims 160-163,165-172 are allowed. The prior art fails to disclose the method comprising the step of moving a bone removal device along the width of the vertebral bodies.
